03-06 G35 Sedan

03-07 G35 Coupe

07+ G35 Sedan

08+ G37

09+ 370Z

Instructions

1. Print out template and check scale is 1:1. All units in mm. Hub register hole (66 mm) should measure 2.60".
2. Cut out around blue line including hub register. It is recommended to trace template to a light piece of cardboard for a final template. The template is the profile of the brake caliper
3. Remove wheel, insert template inside hub register of wheel and spin in circle. Template should not contact any section of the wheel. It is recommended to add at least 2mm to all dimensions to ensure clearance.
